Sustainable Reporting for SMEs : A new Voluntary Sustainability Reporting Standard for non-listed SMEs (VSME) has been developed to help micro enterprises and SMEs enhance their sustainability performance and meet stakeholder expectations.

Business Response Trends

- Maintaining Transparency**
Most companies are not stepping away from reporting, recognising sustainability transparency brings business advantages.
- Competitive Advantage**
Companies in European or global markets see ESG essential for credibility and competitiveness.
- "Right-Sized" Alternative**
VSME offers core principles without the heavy lift, appealing to those struggling with CSRD complexity/starting out on their sustainability journey/reporting for the first time.

This seminar outlines how to draft a sustainability report and what policies and procedures to include.
