

Paragon Business Systems

Innovation at your fingertips ...

Paragon Systems, Unit 5, Purcellsinch, I.D.A. Business Park, Dublin Road, Kilkenny City, R95 WKK6

Paragon Business Systems was founded in 1994 and specialises in the provision of IT solutions to the hospitality industry, and has grown to become the leading supplier of Integrated Hotel Management Systems to the independent hotel sector, with in excess of 300 clients in Ireland.

Paragon are the sole distributors of HotSoft Hotel Management software for Ireland and the UK and in 2007, it acquired the European distribution rights to the Volante range of catering and hospitality IT solutions. Since 2009, Paragon has begun to expand in the UK Hospitality market driven by 2 separate acquisitions which enabled the company to expand its client base in the UK. These acquisitions enabled the company's Kilkenny based HQ to maintain its staffing levels during the downturn in the Irish economy and challenging times for the industry, while at the same time continuing to develop its high standards of customer service.

In 2010, Paragon received a Feasibility Study Grant from Local Enterprise Office Kilkenny towards the cost of prototype development and testing of their new order-taking software application.

Paragon Business Systems has availed of a number of supports from Local Enterprise Office Kilkenny over the years. It received a Capital Grant from the Local Enterprise Office Kilkenny in 2004, towards the costs involved in expanding its operations at its new office location in the Purcellsinch Industrial Estate, Kilkenny. The company have also availed of a wide range of 'soft' supports, including participation in a number of management development programmes, mentoring support and specialist support assistance towards the costs of undertaking market visits and trade fairs.

In 2010, Paragon received a Feasibility Study Grant from Local Enterprise Office Kilkenny towards the cost of prototype development and testing of their new order-taking software application. The initial testing of the application, which can be downloaded onto the latest hand-held iPod / iPad systems, has proved extremely positive, with an installed client base for the new product range in Ireland UK Spain and Canada. Paragon currently employs 14 people.
