

Sector Information & Advice Workshops in I.S. EN 1090-1 Requirements for conformity assessment of structural components

Carlow – 21st January 2015
Cavan – 29th January 2015

The Local Enterprise Offices in association with the National Standards Authority of Ireland is hosting a series of seminars across Ireland for Fabrication, Engineering, construction companies and interested parties in the Harmonised European Standards which now is a mandatory requirement under EU regulations. This standard is of competitive importance to relevant companies and this seminar aims to explain the process of certification and also outline possible supports available from your Local Enterprise Office in order to achieve certification.

The seminar will be delivered by Sean Balfe, Director of Sustainability and Built Environment who is the industry expert with the NSAI and cover:

- Construction Products Regulations and Register.
- Requirements for conformity assessment of structural components EN 1090 Impact on Typical Fabrication Company What products are or not covered in the Regulation and Standard. CPR 07/40/3
- How to get certified.
- NSAI's role in this process as the Notified Body

The programme for the seminar is as follows:

7pm	Registration
7.10pm	Sean Balfe Director of Sustainability and Built Environment - NSAI
7.40pm	Supports available from your Local Enterprise Office
8.00pm	Q & A
8.30pm	Close

Workshops are being delivered initially in Carlow & Cavan and further workshops will be delivered subject to demand in your local area.
