What is a Dynamic Purchasing System?

A Dynamic Purchasing System is a two-stage electronic process that contracting authorities use to streamline the procurement of commonly available goods, works or services that meet their requirements from all suitably qualified Economic Operators that have been admitted to the DPS.

Stage 1 Call for Competition – DPS Qualification

Call for competition issued by LGOPC seeking requests to participate in the DPS and the DPS is established.

Stage 2 Supplementary Request for Tender

Contracting Authorities invite the Suppliers admitted to the DPS to tender for specific SRFT Contracts.

Who should Apply?

Suppliers who are experienced in supplying Bound and Unbound Aggregate Materials and/or Ready-Mix Concrete.

How Many Lots are in the DPS?

Lot 2 – Ready-Mix Concrete (Supply Only)
